

Silicone Case for Ingenico DX4000

Keep the payment terminal safe from cracks and damage.

MADE OF SILICONE

A flexible silicone case **absorbs shocks** and **protects the terminal**.

NON-SLIP TEXTURE

The anti-slip finish supports **secure device handling** in a variety of working environments.

PERFECT FIT

Designed specifically for the Ingenico DX4000, ensuring a perfect fit.

LIFTED EDGES

Raised above the screen to provide additional protection in an event of a fall.

FUNCTIONAL CUTOUTS

Easy access to all key functions – from the card slot to NFC and the charging port.

Your Benefits

DROP & SHOCK RESISTANT

The silicone construction absorbs impacts and vibrations, helping protect sensitive device components.

HOUSING PROTECTION

The case prevents scratches, scuffs, and everyday wear, while also protecting the device from dust and dirt.

EXTENDED DEVICE LIFESPAN

Continuous protection helps preserve the device's condition over time, supporting longer service life and sustained performance.

LEGHTWEIGHT DESIGN

Designed to enhance device protection without adding bulk, it keeps the terminal light and comfortable to use.

ENHANCED GRIP

The non-slip surface increases traction, ensuring the device stays securely in hand and doesn't slip during use.

FEWER REPAIR COSTS

Reliable protection against mechanical damage and dirt helps reduce downtime and repair costs, keeping the device ready for uninterrupted use.

Product Details

Product name	Silicone - DX4000
Product code	OEM_SIL_6212
EAN	
Appearance	May be colored
Weight	84 g
Packed product dimensions	25 x 10 x 5 cm
Master carton quantity	100 pieces

Technical Specifications

Material type	Peroxide-cured silicone rubber
Base polymer	VMQ (vinyl methyl silicone)
Hardness*	61 Shore A
Tensile strength**	8.5 Mpa
Elongation at break***	500%
Tear strength****	28 N/mm
Compression / tensile set*****	6%

Hardness* – provides an optimal balance between flexibility and firmness for reliable everyday protection.
Tensile strength** – ensures the material remains durable and resistant to stress during regular use.
Elongation at break*** – allows the silicone to stretch significantly without cracking or losing integrity.
Tear strength**** – improves resistance to tearing, especially around edges, corners, and cut-outs.
Compression / tensile set***** – helps the case return to its original shape after pressure or prolonged use.
